

**BANCROFT-ROSALIE HIGH SCHOOL'S  
PHILOSOPHY ON ACTIVITIES**

The purpose of this handbook is to share important knowledge and explain rules and regulations to the student participant. Activities are considered an integral part of Bancroft-Rosalie School's program of education, which provides experiences that help students physically, mentally and emotionally.

It is our belief that the 7/8-grade program will emphasize student participation over sports competition during regular season play (Exception, in tournament competition we will play to win). In High School, students in grades 9-11 are prepared for Varsity competition through our J.V. programs, which emphasize fundamentals that will help prepare these athletes to compete at the Varsity level. In Varsity athletics, competition is emphasized over student participation but coaches are encouraged to sub freely when the opportunities arise.

Participation in activities both as a participant and as a spectator is an important part of the student's total educational experience. Such participation is a privilege that carries with it responsibilities to the school, to the parents, to the community, to the entire student body and to the participants themselves. These activities enhance citizenship, teach the individual responsibility, promote loyalty, and develop a sense of school pride.

A variety of activities are offered to meet the many interests of the Bancroft-Rosalie students. Participation is encouraged.

The following activities are approved for the 2010-2011 school year.

Eligibility will run from Monday to Monday. Students must meet the eligibility status to participate in any activities or contests. Parents will receive a letter from the school when their child is ineligible which will inform them of the classes and the grades that their child is down in. The letter will also include the date of the week when they will be ineligible.

All other eligibility policies as stated by the Nebraska School Activities Association must be in compliance. Students not passing four classes for the semester will be ineligible for the succeeding semester.

### **Guidelines for Lightning Safety**

Flash to Bang - This method is used to assess how far away lightning is striking. It is determined by counting the number of seconds it takes to hear a clap of thunder after witnessing a flash of lightning. The number of seconds is then divided by five to get the distance, in miles, to the lightning flash. Generally a 30-second or less flash-to-bang count suggests removal of the athletes from the field to a safe shelter is advisable.

Evacuation - If lightning is imminent or a thunderstorm is approaching, all personnel, athletes and spectators should evacuate to available safe structures or shelters. A list of the closest safe structures should be announced and displayed on placards at all athletic venues.

8

Thirty-minute rule - Once lightning has been recognized, it is recommended to

wait at least 30 minutes after the last flash of lightning is witnessed or thunder is heard. Given the average rates of thunderstorm travel, the storm should move 10-12 miles away from the area. This significantly reduces the risk of local lightning flashes. Any Subsequent lightning or thunder after the beginning of the 30-minute count should reset the clock and another count should begin.
